The weather has made a big change in prices and all upwards. The freeze in California has sent fruit and fresh vegetables up badly. Apples, though, are still reasonable and we have plenty of them. Get a box of the small ones for the children. Nothing would be better for them this time of the year.

Sugar has gone up a little and may go more. You will need a sack for the fruit season.

Butter and eggs will be up and down with the weather for awhile.

Every one is turning to canned fruit and vegetables and they are fine. The canners are improving every year in the quality of goods turned out. Remember that much of the material in the cans under the Del Monte brand are put up near Portland, and by using them you help the home markets.

A jolly crowd gathered at the home of Mrs. S. J. Burroughs, 117 Fox street, Saturday evening to assist in celebrating her birthday. She declined to tell her age, but it was thought she was nearing the half century mark owing to her surprise and excitement caused by the advent of the guests. Make a special effort to attend and make this the biggest meeting we have ever had in order that by uniting our forces and interests and concerting our efforts we may accomplish the most good for this part of the city, and also show to our city commissioners that we mean business, and during these times of depression is the very time they ought to get to work on our parks and other public works in order that our unemployed men may find jobs that will tide them over this period of depression and at the same time add to the beauty and wealth of any city.

The Community Sunday school attendance last Sunday was the best that has been yet. There were new faces at both the morning and evening services.
